Supporting a safe and fun environment for your child's gaming experience.

NINTENDO SWITCH Parental Controls

As a parent, it's not always easy to keep an eye on your children's time spent with entertainment devices. The Nintendo Switch Parental Controls smart device app is a free smart device app which you can link with Nintendo Switch to easily monitor what and how your children are playing.

A Nintendo Account belonging to a parent or guardian over 18 is required. See www.nintendo.com.au/nintendo-switch/parentalcontrols/ for details

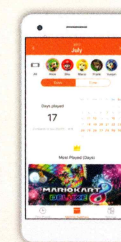

Is my child playing
too much?

Monitor your child's play time

If you set an agreed length of play
time with your child, then an alarm
will let them know when their time
is up, no matter how much they
lose themselves in the game.

What kind of games is
my child playing?

Monitor what your child is playing

See reports that show at a glance
which games were played and for
how long. In addition to seeing what
happened each day, a monthly
summary report can also be sent
via push notification.

Is my child safe playing
games?

Restrict features easily based on your child's age.
It's also possible to set restrictions for each
feature individually.

Features that can be restricted:

- Playing age inappropriate games
- Posting screenshots to social media
- Communication with other users such as posting messages or images*
- Restrictions for purchasing products and services on Nintendo eShop can be set from your Nintendo Account settings

*The Nintendo Switch Parental Controls app does not include settings for the Nintendo Switch Online app. To set restrictions for the Nintendo Switch Online app, please refer to your smart device settings.

Please note: it is also possible to set all the age-based restrictions listed above via the Nintendo Switch console, without using the Nintendo Switch Parental Controls app.

Joy-Con

Nintendo Switch has a controller on each side of the console that function together: the Joy-Con controllers.

If you attach the two Joy-Con controllers to the Joy-Con grip, it will work like a traditional controller, and without the grip they work as two individual, fully-functioning controllers.

By handing one of the Joy-Con controllers to a friend, you can play competitive or co-operative multiplayer anywhere.

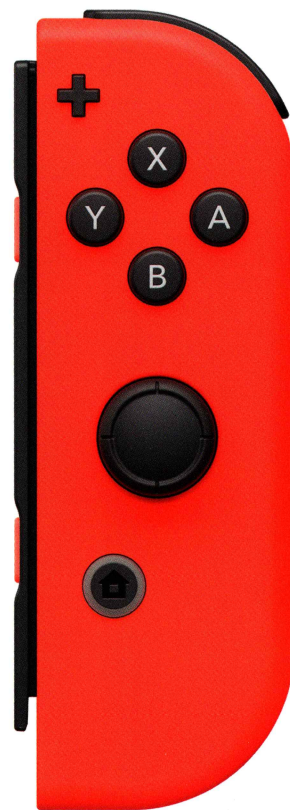

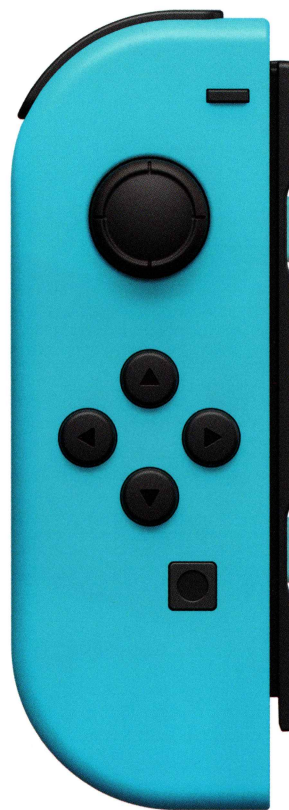

As well as holding a single Joy-Con vertically or horizontally to play games, you can also play using both Joy-Con controllers at once, holding one in each hand.

Attach the Joy-Con straps included in the package and slip the straps onto your wrists to enjoy the Joy-Con controllers' motion controls.

If you hold the Joy-Con sideways, you can also access the SL/SR Buttons with ease.

MAKE PLAY DISCOVER

WHAT'S NINTENDO LABO?

Imagine being able to turn a simple piece of cardboard into almost anything:

 a motorbike,  a fishing rod,  a piano

or whatever you can imagine!

By assembling sheets of cardboard into a variety of shapes called Toy-Con, and combining them with Nintendo Switch, you can bring them to life!

 Win a race,  catch a fish,  perform a song...

Nintendo Labo lets anyone easily pick up and enjoy making, playing and discovering. Families who experience Nintendo Labo together might find themselves inventing new ways to play without realising it – and sometimes, the invention itself is the best kind of play!
